June 18, 2004

Dear Mr. Graham:

Your Guest Commentary on page 10 of Coin World for June 21, 2004 states that you are a collector of counterfeit coin detector scales among other things.

Perhaps you are familiar with the book which A. George Mallis and I wrote on the subject. That ought to be revised and updated and I wonder if you have any ideas on that subject.

You might tell me how extensive your collection is as we may be able to help each other in that matter.

Sincerely,

Eric P. Newman
